Data Backup & recovery

Tasks :-

1.Create a backup of your WhatsApp chat history on your Android device, then locate and verify the backup file in your Google Drive or local storage.

Ans :-

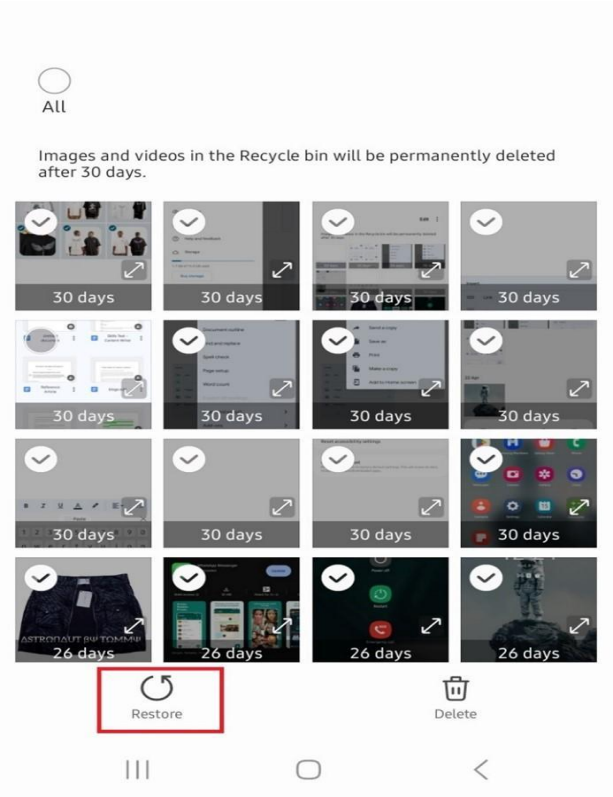

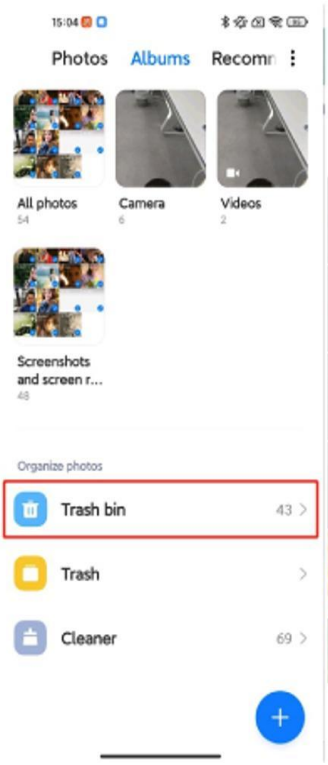

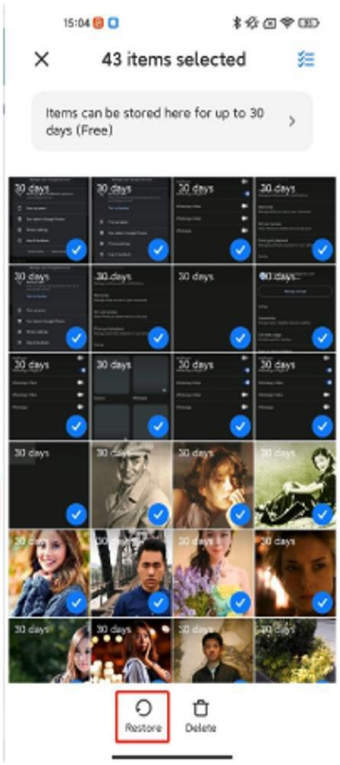

**2.Simulate accidental photo deletion by moving 3 images from your phone's gallery to the trash, then restore them using your phone's built-in recovery feature.

Hint: Check the 'Recently Deleted' or 'Trash' folder in your gallery app.**

Ans :-

3.Write a step-by-step guide (with screenshots if possible) on how to schedule automatic backups of your contacts to Google Account or iCloud, so you never lose them if your phone is lost.

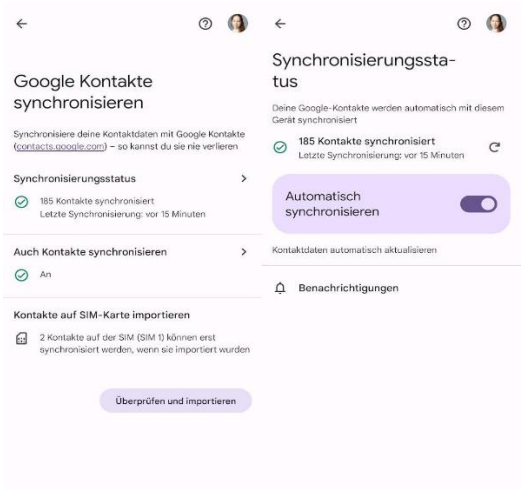

Ans :-

- **Android – Automatic Contacts Backup Using Google Account**
- **Step 1: Open Settings :-**

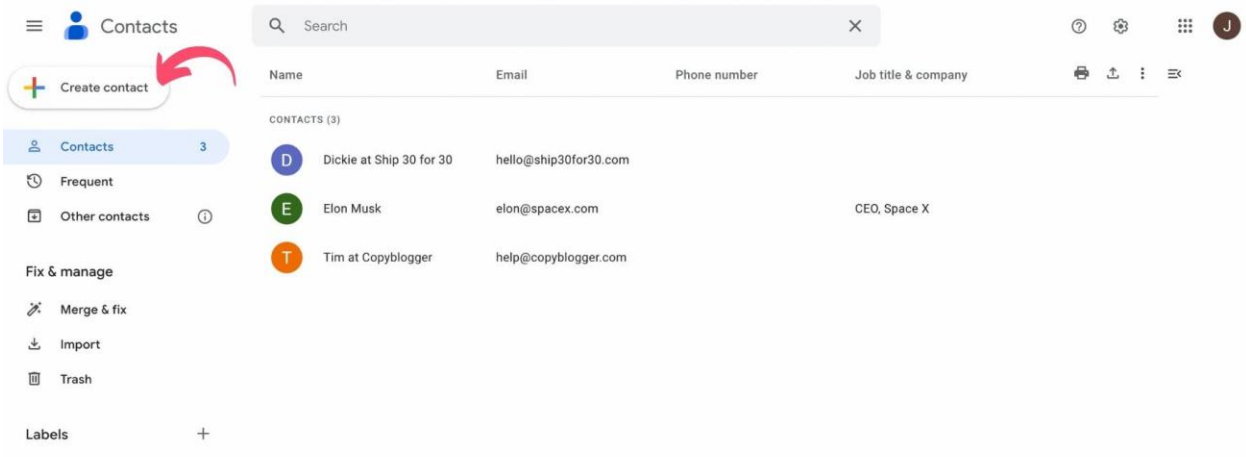

- **Step 2: Enable Contact Synchronization**

➢ Step 3: Verify Google Contacts

4.Use Google Takeout to export and download a backup of your YouTube playlist data, then extract the ZIP and list the names of all playlists you backed up.

Ans :-

- **Step by step guide:-**
  - **Step 1: Open Google Takeout**
  - **Step 2: Select YouTube Data**
  - **Step 3: Configure Export**
  - **Step 4: Download the ZIP File**
  - **Step 5: Extract the ZIP File**
  - **Step 6: Locate YouTube Playlist Data**

5.Test restoring a deleted file from Google Drive's Trash: upload a sample file, delete it, then recover it from Trash and confirm it's accessible.

Ans :-

- **Steps to Restore a Deleted File from Google Drive**
  1. Open Google Drive.
  2. Click + New → File upload.
  3. Select a sample file from your computer.
  4. Wait for the upload to complete.
  5. Locate the uploaded file in My Drive.
  6. Right-click the file and select Move to trash.
  7. Open the Trash folder from the left sidebar.
  8. Find the deleted sample file.
  9. Right-click the file and select Restore.
  10. Return to My Drive.
  11. Open the restored file.
  12. Verify that the file is accessible and its content is intact.
